

# SUNSAFETY GUIDELINES

## HOLY TRINITY PRIMARY SCHOOL

DATE COMPLETED: 16 | 04 | 18

Whilst we recognise that some sun is good for us, Sun Safety is an important health and safety issue for schools. At Holy Trinity we will endeavor to be sun safe by:

- We are committed to educating all pupils annually on sun safety using comprehensive, curriculum linked lesson plans, activities and resources provided by the Sun Safe Schools national accreditation scheme
- We are asking parents to ensure their child brings a quality sunscreen to school
- We are asking parents to ensure their child brings an appropriate sun hat to school
- We make available additional/spare sun hats
- We currently provide shaded areas outdoors where pupils congregate for outdoor play, lessons and activities. This can include trees and purpose built or portable shade structures.
- We are committed to monitoring UV levels daily during warmer months to ensure appropriate sun safety measures are implemented when necessary
- We communicate sun safety information through a range of channels e.g. our website, newsletters, text messages, social media, school assemblies and staff meetings

This guidance was developed as part of Sun Safe Schools national accreditation scheme
